UNITED NATIONS AUTHORIZED SMALL AMMUNITIONS CASE

FOR TRANSPORT & STORAGE
OF AMMUNITION

- **United Nations Authorized 4H2**
- Suitable for: Ammunition (small, medium, large arms), Explosives, Countermeasures, Flares, Pyrotechnics etc.
- Weight reduction of about 65% in comparison to standard metal versions which will result in tremendous savings on transport, loading capacity and field handling
- Tested according to all military standards (DEF-STAN 81-41/Stanag 4280) and transportation of dangerous goods (4H2)
- IP54 rated, so no ingress of water and dust
- Improved stackability due to pre-moulded ridges
- Recyclable and reusable
- No rattling due to plastic raw material which means no risk of sparks
- Multiple color options

P/N: TCP-ACSG
