

ENERGY CASE

The energy case delivers clean 110 volts or 12 volts and is completely silent, maintenance-free and CO2-neutral. It enables a simple, independent power supply. The energy box is charged either before use at the socket or during use by means of solar cells.

Its wheels and telescopic handle make it particularly easy to transport.

P/N CASE ENERGY

TECHNICAL DATA

Endurance	1000 watt
Maximum output	290 W
Battery capacity	1200 watt-hours Pure sine wave voltage
Charging possibilities	Power supply (200 W) and solar cell (100 or 200 Watt)
Min. charging time	3 hours
Battery type	Lithium Iron Phosphate

Case shell made of polypropylene (PP)

Certified with the STANAG 4280, DEF STAN 81-41 and ATA 300 standards

Automatic air pressure compensation valve

Strong, dust proof, waterproof (IP65 certified)

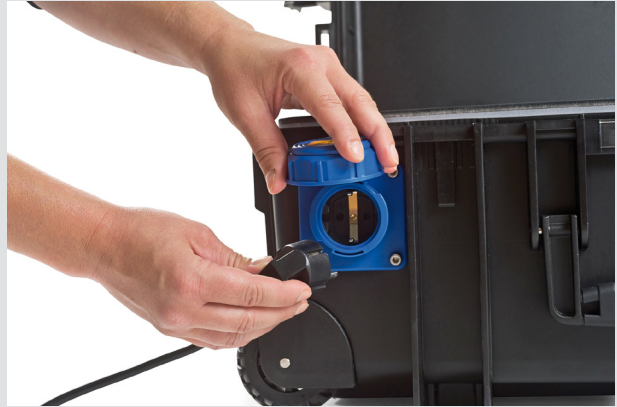

Rubberized handle

Stackable

DIMENSIONS (METRIC)

Internal Dimensions	21.1 x 14.2 x 8.9 inches
External Dimensions	24 x 16.9 x 10.4 inches
Weight without packaging	48.5 lb

The dimensions are length x width x height. The weight specified is for each product and does not include any additional inserts. Technical changes are subject to modifications without notice
